

LANXESS increases prices for ion exchange resins and iron oxide adsorbers

Cologne, June 30, 2023 – Specialty chemicals company LANXESS will globally increase its basic prices for all Lewatit ion exchange resins and Bayoxide iron oxide adsorbers for water treatment applications by on average 3 percent. The price increase will be valid starting July 1, 2023 for all deliveries. Customers will be informed individually.

The variable surcharge introduced in the second quarter of 2022 will be retained and adjusted monthly on the basis of key input costs. The cost level of raw materials, energy and transportation remains well above historical averages and LANXESS continues to expect an increased level of volatility in the second half of the year.

The LANXESS Liquid Purification Technologies business unit is one of the world's leading global solution providers for water treatment and liquid purification. Ion exchange resins and iron oxide adsorbers are used in numerous industries and applications to purify water and other liquid media effectively. Detailed information on products and services can be found at www.lewatit.com.

LANXESS is a leading specialty chemicals company with sales of EUR 8.1 billion in 2022. The company currently has about 13,200 employees in 33 countries. The core business of LANXESS is the development, manufacturing and marketing of chemical intermediates, additives and consumer protection products. LANXESS is listed in the leading sustainability indices Dow Jones Sustainability Index (DJSI World and Europe) and FTSE4Good.
